Welcome to IESO 2019

The Organizing Committee of the 13th International Earth Science Olympiad would like to extend a warm welcome to all delegates to the 13th IESO in 2019. The slogan, "Passion for Earth Science... Continued.", embodies the IESO's visions to encourage young students to create and share their passion and experiences about Earth Science in Korea. The continued passion for Earth Science can contribute to solving the global challenges we are facing, such as climate change, water availability, energy resources, and so on.

The first IESO was held in Daegu on 2007. It is a great honor to host the IESO again.
Daegu is the fourth largest city in Korea and located in southeastern Korea about 300km from our capital Seoul. The city is a vital traffic hub in the region, connected with seven major national highways and three railroads, including the high-speed trains: KTX and SRT. Additionally, air routes connect Daegu (TAE) with Incheon/Seoul International Airport (ICN), Jeju and other cities in Asia.

We would expect that you will experience the spiritual excitement of the IESO while enjoying the warm hospitality of Koreans and sharing a passion for Earth Science.
We look forward to your attendance and to the pleasure of welcoming you to the IESO 2019 in Daegu, Korea.

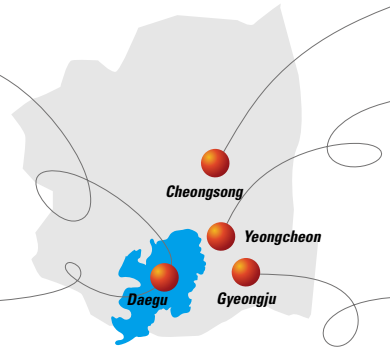
IESO 2019 Organizing Committee

Natural attractions around the venue city

As a basin surrounded by beautiful Palgongsan and Biseulsan mountains, the city has a lot of geological and historical attractions. Also, two UNESCO designated World Heritage sites are located near Daegu.

Daegu National Science Museum

Palgongsan Mountain



Bohyunsan Optical Astronomy Observatory

Cheongsong UNESCO Global Geopark

Seokguram Grotto

Gyeongju Wind Plant

Columar Joints in Yangnam, Gyeongju
